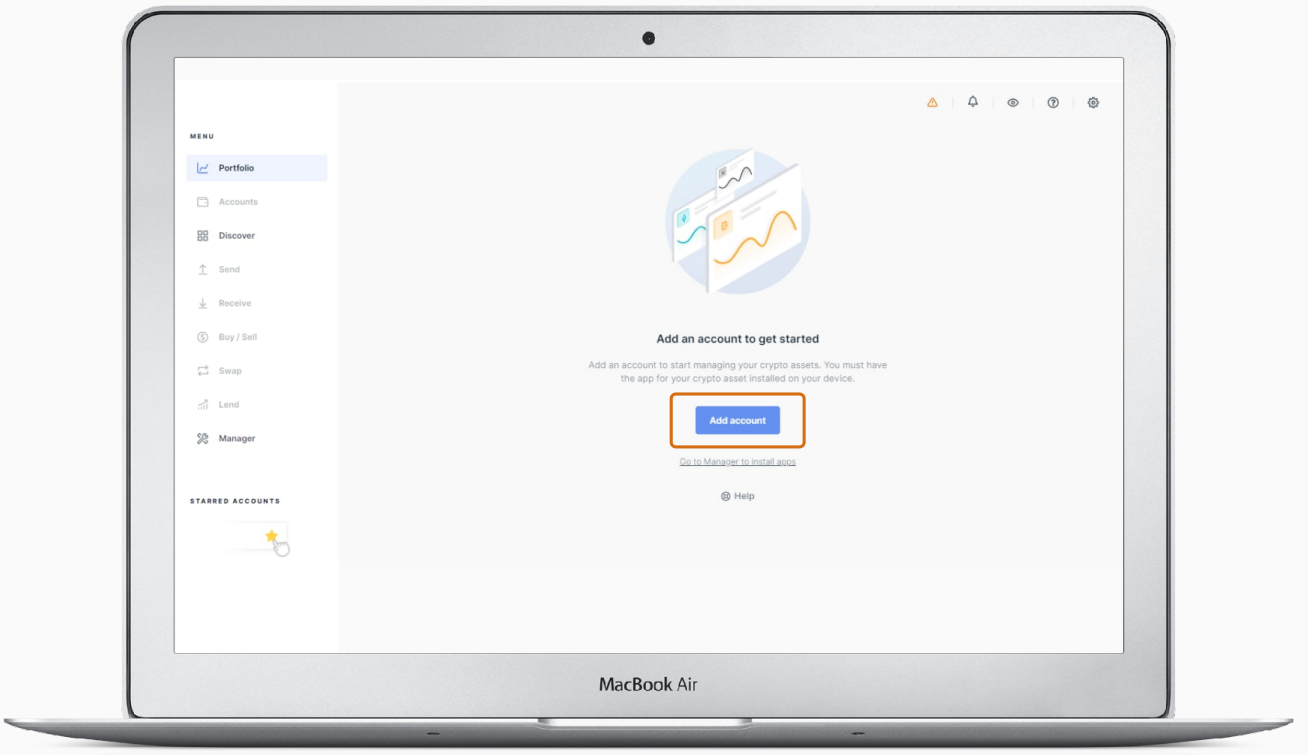
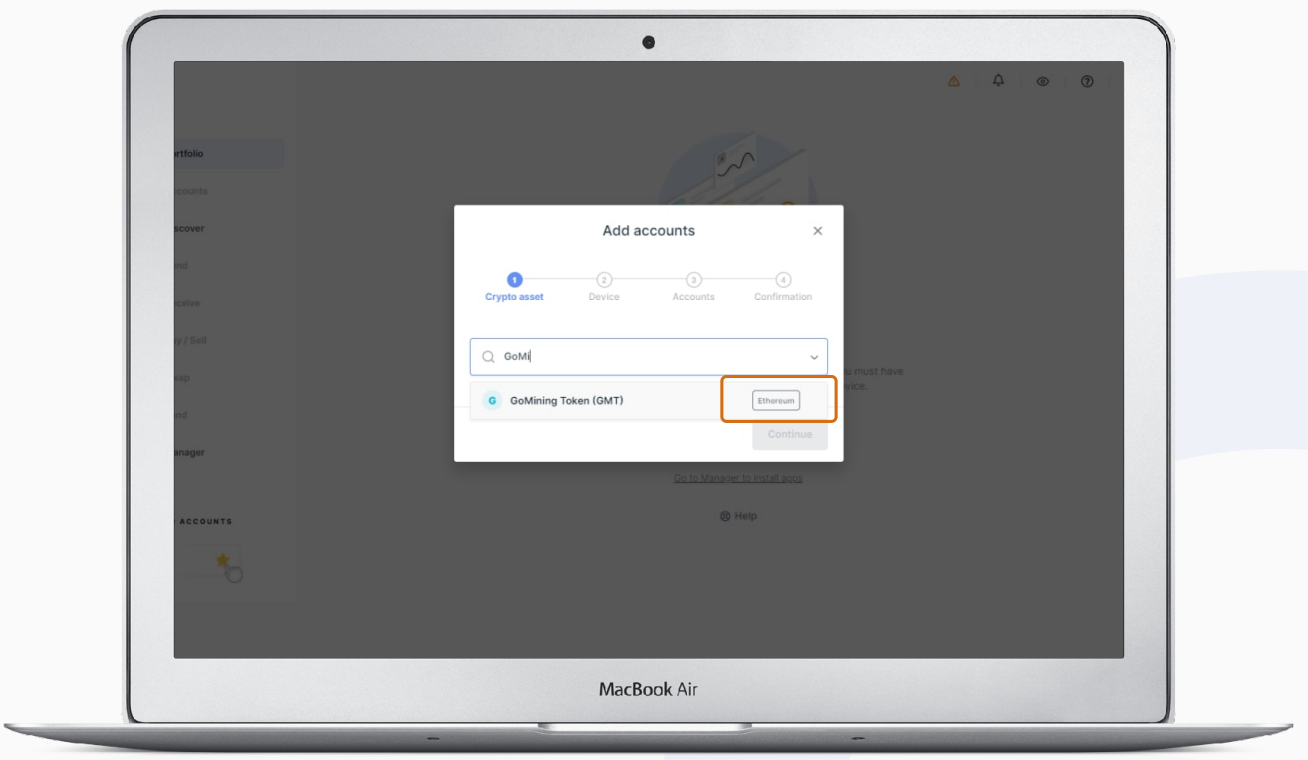
Ledger: offline hardware wallet

Step 1. Use the information on the website https://www.ledger.com/ to purchase a wallet and start using it offline. Please note that Ledger Live app must be at least 2.32 version.

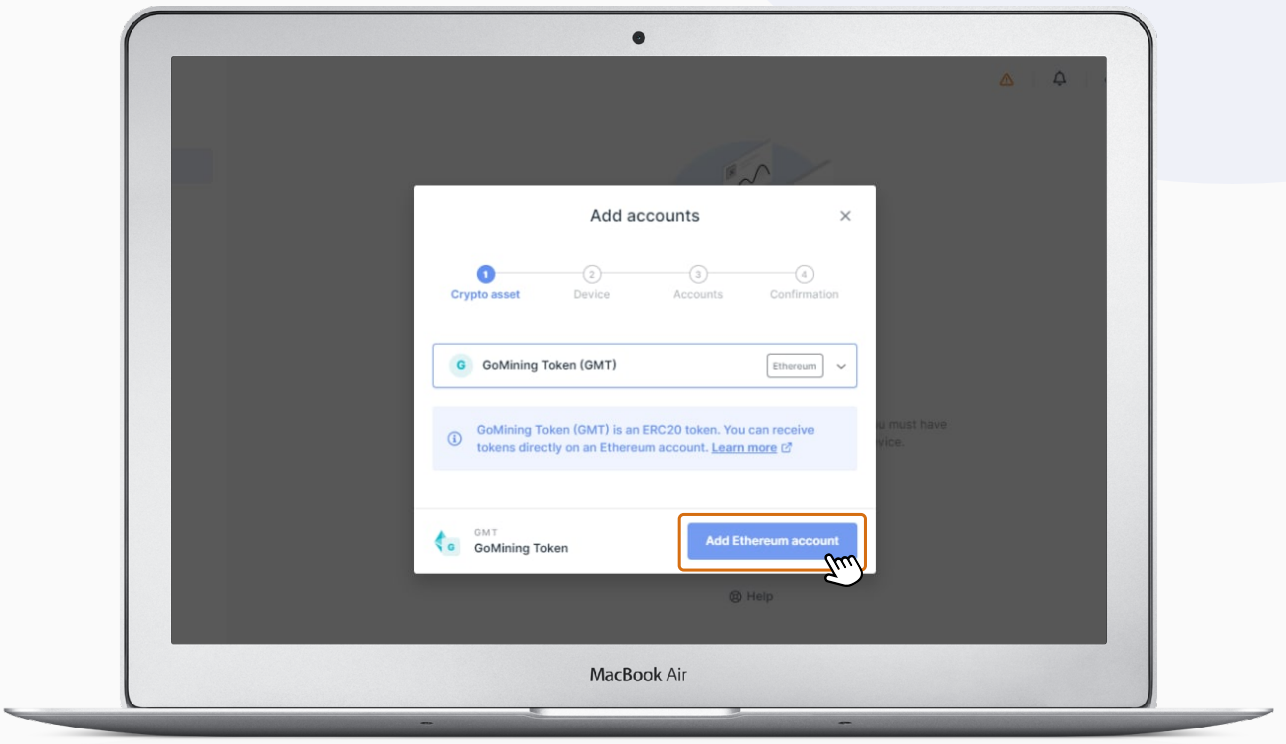
Step 2. After registration add an account to get started.



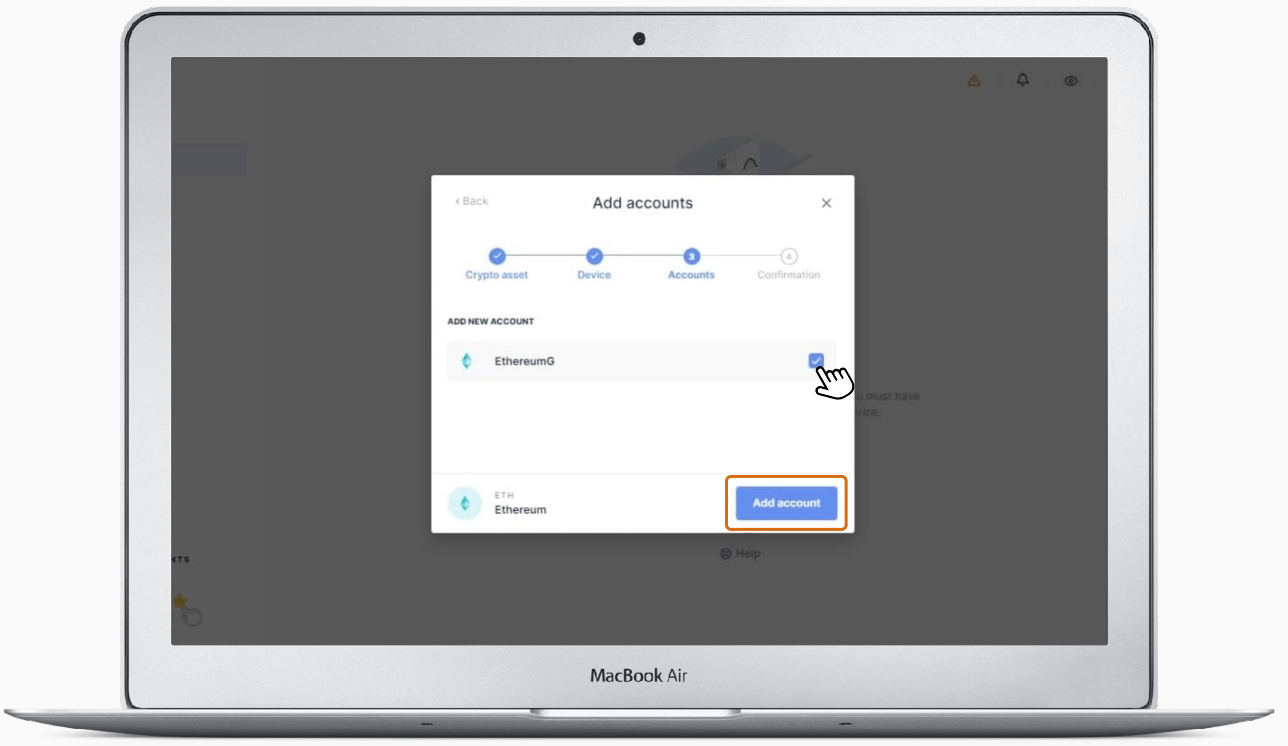
Step 3. Find GoMining Token (GMT).



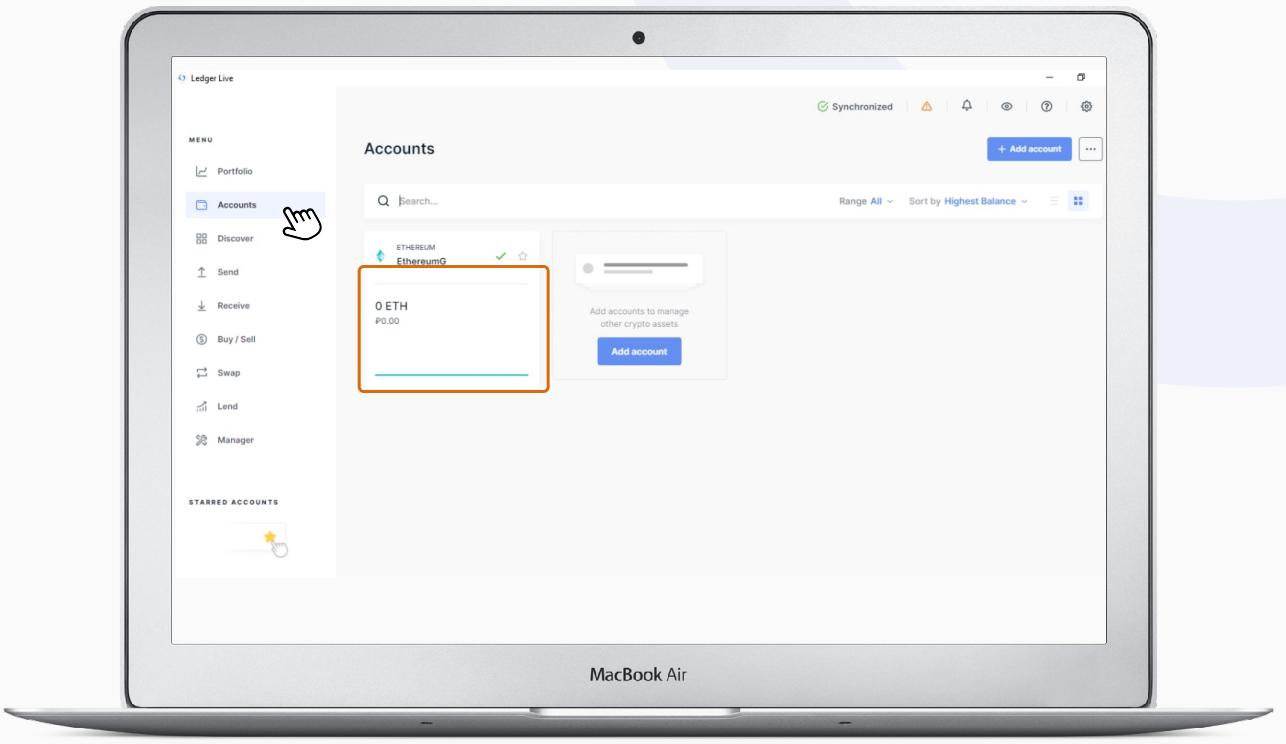
Step 4. Create an Ethereum account to display GMT.



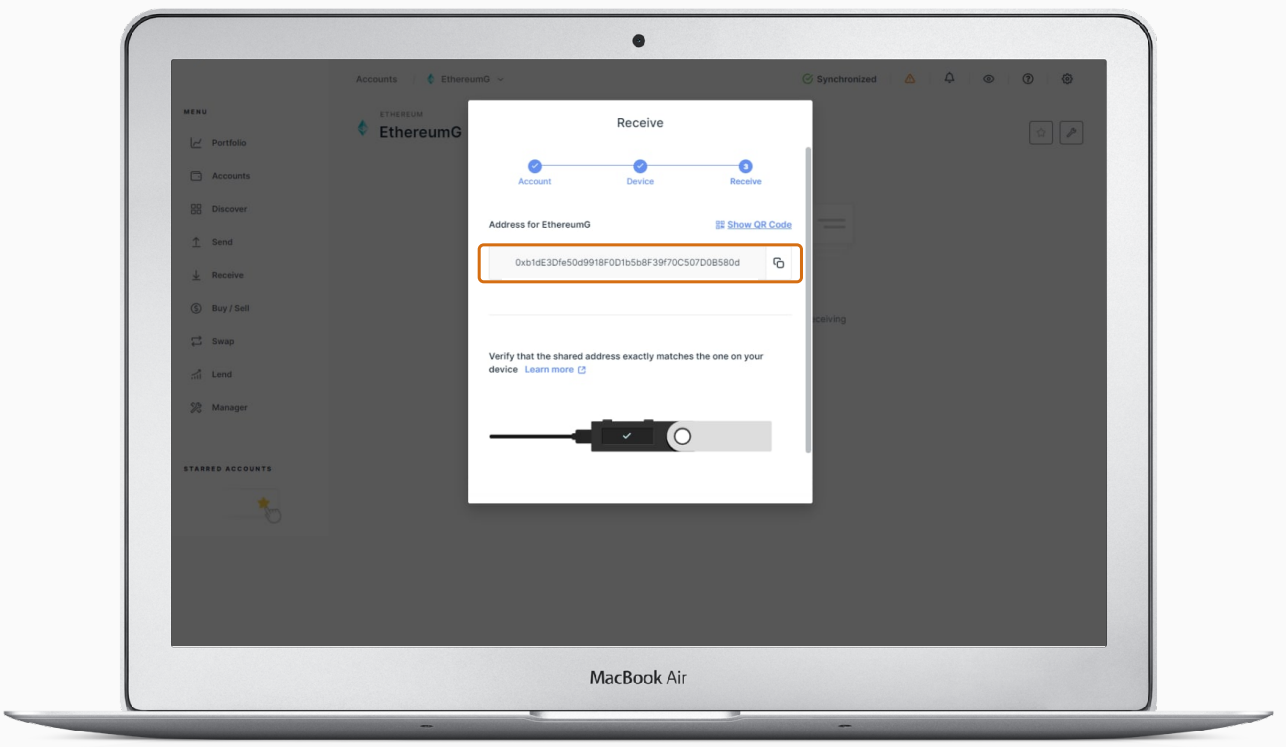
Step 5. Choose an EthereumG account.



Step 6. Go to the account tab. Choose an EthereumG account.



Step 7. Add your Ethereum address where your GMT will be stored.



Step 8. Now this wallet displays your GMT tokens.
